**INTERNAP**<sup>®</sup>

IT | IQ

**250 Williams Street N.W., Suite E-100  
Atlanta, GA 30303**

Built for resiliency, our proven data center located in the heart of the Atlanta business district, offers colocation services to many businesses around the world. As an established provider for nearly 15 years, we offer advanced security controls to ensure your data is protected 100% of the time. With tech rooms, customer lounges, conference rooms, storage areas and offices, you have the ability to do business even when away from the office.

## Internap's Atlanta, Georgia facility offers:

- **Location:** Located in one of most carrier rich buildings in the heart of downtown Atlanta, Internap's facility offers convenient access to highways, airports and hotels.
- **Speed to Market:** By integrating modular elements into our facility design, we can grow as quickly as your business demands.
- **Carrier Diversity:** Our Atlanta facility offers a robust carrier Meet-Me-Room, including alternative transit and local access options. In addition, we provide Internap Performance IP™ with optimized links up to 10GB through 10 top tier carriers.
- **Customer Amenities:** Our data centers are more than just a place to house equipment; every facility features fully equipped office space and technical workspace, plus a full service lounge with DIRECTV®, X-Box® and multiple vending options.
- **On-Site Personnel:** Our experienced team of data center engineers and technical support staff are on-site 24/7, proactively monitoring facility performance and resolving issues before they impact your business.
- **Resiliency:** More than just an N+1, our Infrastructure system is designed for the concurrent maintainability of generator, UPS and cooling modules, enabling the Atlanta facility to maximize the uptime of your environment.
- **Security:** We protect your equipment with comprehensive security measures including 24/7 on-site security personnel, closed circuit television systems, as well as biometric, electronic and key card locks.
