

Houston Data Center

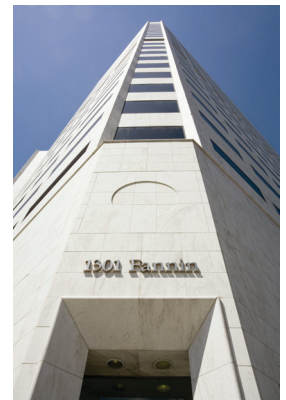

**1301 Fannin Street, Suite 1100
Houston, TX 77002-7008**

As one of the most dependable and resilient facilities in the region, our premier data center in Houston is the only facility to offer power feeds from two substations. Parallel redundant N+1 design efficiently distributes power load and protects against outages. The Houston data center is also built to withstand extreme weather events and is a 200-mph wind-rated building. In addition, Houston delivers advanced security features to ensure your data is protected 100% of the time.

Internap's Houston, Texas facility offers:

- **Location:** Located in Houston's premier carrier hotel, Internap offers convenient access to highways, airports and hotels.
- **Carrier Diversity:** The Houston facility offers a robust carrier Meet-Me-Room, including alternative transit and local access options. In addition, we provide Internap Performance IP™ with optimized links up to 10GB through up to 11 top tier carriers.
- **Speed to Market:** By integrating modular elements into our facility design, we can grow as quickly as your business demands.
- **On-Site Personnel:** Our experienced team of data center engineers and technical support staff are on-site 24/7, proactively monitoring facility performance and resolving issues before they impact your business.
- **Resiliency:** More than just an N+1, our Infrastructure system is designed for the concurrent maintainability of generator, UPS and cooling modules, enabling the Houston facility to maximize the uptime of your environment.
- **Security:** We protect your equipment with comprehensive security measures including 24/7 on-site security personnel, closed circuit television systems, as well as biometric, electronic and key card locks.

Technical Site Specifications

Location and Site Information	
Address	1301 Fannin St. Suite 1100 Houston, TX 77002
Colocation Space	41,000 square feet
Floor Type	Antistatic raised floor
Loading Dock Size	Easy access for all size trucks
Roof Rights	Yes
Site Structure	
Year Built	1983
Number of Floors	26
Structure Type	Structural steel, reinforced concrete, pre-cast concrete
Exterior Type	Marble, pre-cast concrete, glass
Seismic Rating	Zone 0
Ceiling Clearance	16 foot clearance on IT floor
In Flood Plain	No
Site Utility	
Electric	
Source of Power Feed	Quad (4) Transformer Substations
Redundant Power Feeds	Yes
Power from Substation	Buried
Water	
Service to Site	Houston Public Utilities 2 inch
Nominal Pressure	80 PSI
Communication	
NPA / NXX	713/495
# of Entrance Vaults	2
Redundant Paths	Yes
Fire Protection	
Wet or Pre-action	Both
Number of Zones	36
Smoke/Heat Detection	Yes - VESDA
Sub Floor Detection	Yes
Remotely Monitored	Yes

Environmental Controls	
CEU Quantity	(4) 1200 ton York cooling towers
Cooling Type	Chilled water
Redundant	Yes - N+1
Heating Type	(2) Cleaver Brooks/672BTUs
Humidification	Ultrasonic
Security	
CCTV	Yes - 22 cameras
CCTV Recorded	Up to 6 months
Intrusion Detection	Yes
On-Site Guards	Yes
Guard Presence	24 hours per day
Card Access	HID proximity card readers
Access Control	Biometric & keypad
AC Power	
UPS	(5) Liebert/GE/APC
Sizes(s)	(1) 650 kVA / (3) 500 kVA / (1)1200kVA
Redundancy	Yes - A&B feeds
Harmonic Filters	Yes
Battery Type	Lead Calcium (gel cell) / VRLA
Battery Life at Full Load	20 minutes
Generator	(2) Caterpillar
Generator Size(s)	(2) 2.0 MW
Redundancy	N+1
Generator Fuel	Diesel
Remotely Monitored	Yes
Carrier Neutral Meet-Me-Room	
AboveNet	Alpheus
AT&T*	CenturyLink
Comcast	Comcast* Business
Level 3*	LG Fiber
Logix*	MCI/Verizon
On Fiber	Phonoscope
SBC*	Time Warner
TW Telecom*	Verizon*
*XO	

*Also available via Internap IP
